

TA Evaluation – ESM232 Miller
Spring 2012

- Flew like an eagle
- Steve was always available for help outside of class and his office hours were always very helpful. Overall, a great TA.
- Very Knowledgeable, very willing to help.
- Oh my. Steve is the best TA I've had at Bren. He combines his extensive knowledge of programming with a rare ability to communicate clearly. He spent a lot of time patiently explaining difficult concepts to me. Give him a raise.
- Clearly a very comprehensive understanding of material. Really helpful in assisting with homework and related questions in class/lab.
- Great job.
- Very helpful & patient with all our programming issues & questions. Thanks!
- Great job. Very helpful and super smart.
- Always available to answer questions outside of class. Responds to emails very quickly and provides thoughtful and clear responses. Master of the subject area and willing to share his time and thoughts to help students get up-to-speed.
- Steve was a big help in mastering the material presented in lecture.
- Really good skills in teaching modeling and programming.
- I think there could have been better coordination with Dawn and Brandon about how to approach the lab section. I did not get the impression that they used Steve to the best of his abilities.
- Steve is super patient and helpful. He is a great TA for this course.
- Excellent course!
- Good
